

## Snelkoppeling Uni HS

Artikelcode: 555024113

### Kenmerken

Max. druk (bar):

16 bar

---

Quick hardened steel connect coupler with European (universal) standard profile and interchangeable with the most popular connection nipples brands of the market. Modern CNC machine tools projected and performed such a more resistant and long-life coupler tested against the standard ones ;thanks to the hardened steel use of those parts mostly subjected to usury. The full 4500 series range is zinc-coated in order to ensure the high time performance
