

Snelkoppeling Uni HS

Artikelcode: 555024114

Kenmerken

Max. druk (bar):

16 bar

Quick hardened steel connect coupler with European (universal) standard profile and interchangeable with the most popular connection nipples brands of the market. Modern CNC machine tools projected and performed such a more resistant and long-life coupler tested against the standard ones ;thanks to the hardened steel use of those parts mostly subjected to usury. The full 4500 series range is zinc-coated in order to ensure the high time performance
